

Athlone Education Centre School Challenge

Paper Aeroplane

Using 1 sheet of A4 paper, design a paper aeroplane which can travel the farthest!

Instructions

- You may only use 1 sheet of A4 paper for the final project.
- Visit www.foldnfly.com and learn to make a paper aeroplane
- Investigate a variety of designs and see which ones can travel the farthest.
- Use your observations and tests to build your own paper aeroplane.
- Mark out a start line, fire your paper aeroplane and use a tape measure to measure the distance travelled by the plane.
